## NATIONAL ORAL AND MAXILLOFACIAL PATHOLOGY DAY – 2026

The Department of Oral and Maxillofacial Pathology celebrated National Oral and Maxillofacial Pathology Day on 25th February 2026 with great enthusiasm and zeal.

It was a two-day celebration that included various activities and competitions involving all undergraduate students of Panineeya Mahavidyalaya Institute of Dental Sciences.

The events conducted were:

- Face Painting
- Finish the Tooth
- Best Out of Waste
- Cake Decoration
- Stand-up Comedy
- Quiz Competition (including Pictionary and Dumb Charades)

All these activities were aimed at promoting both creative and academic interests among students, while also adding a fun element to learning and encouraging teamwork.

**Day 1**, held on 23rd February, included competitions such as Face Painting, Finish the Tooth, Best Out of Waste, and Cake Decoration, with themes largely related to dentistry. Students participated in large numbers and displayed remarkable creativity and innovation.

On **25th February**, the day of National Oral Pathology, the department was beautifully decorated and guests were welcomed with a vibrant rangoli depicting the theme of oral pathology. The day commenced with an entertaining stand-up comedy session, followed by a quiz competition in which 16 teams actively participated, making the event lively and engaging.

The morning session concluded with a prize distribution ceremony for all winners and a group photo session.

The afternoon session began with cake cutting followed by a sumptuous lunch. It concluded with postgraduate students creating fun reels, adding a joyful touch to the celebration.

The program ended successfully, leaving behind beautiful memories and moments of joy.
